Deck
Reversible decks (can be used on both sides)
- Light weight aluminum construction
- Enlarged durability by using the decks on both sides
- Small openings between deck sections to prevent debris build-up and to protect against strong updrafts
- Rigid deck with no parts sticking out

Guardrail and Guardrailpost
- Light weight aluminium construction
- The height of the Guardrailpost is adjustable (max. height is 1.10 meter)
- Easy to use and time saving

Walk Through Stirrup (double)
- Mounts virtually anywhere along the length of the platform to better align the stirrups with the rigging points
- No loose parts
- Enhanced durability by using aluminium and galvanized parts
- Also to be used as stirrup for one-man work cage

<table>
<thead>
<tr>
<th>Product Code</th>

</tbody>
</table>
Walk Through Stirrup (single)
- Several adjustable heights in one stirrup!
- Easy to adjust in different heights
- Low configuration provides a higher position to the top suspension point
- Ergonomically mounting by 1 person
- Low weight compared to other stirrups
- Saving space in storage compared to double-beam WTS's
- No loose parts

End Stirrup
- Galvanized steel
- It is provided with an anti-pivot device to prevent the hoist from tipping over when the platform is lowered and the wire rope is slack

End Guardrail
- Light weight aluminium construction
- Used in combination with Walk Through Stirrups

Quickpin
- Innovative design
- Locking pin for added safety
- Easy installation
- Easy to use and time saving

Castor Wheel with break
- Provided with galvanized wheel supports
- Permits easy movement of the platform on the ground
- Can be mounted with quickpins in any U-frame along the platform
- Normally 4 casters are used, but on corner platforms and platforms over 12m, additional casters are recommended for easy movement and better support
Wall Roller

- Foam Rubber Roller
- Prevents damage to façade
- Flexible placement along the length of the platform
- Mount any desired number of Wall Rollers on the toeboard

423030
Wall roller, Rubber
weight: 5 kg

Adjustable Corner Section

- Unique design
- Strong steel construction combined with light weight aluminium components
- Lock in the desired angle with quickpins (7 angles in one product: 20°, 30°, 45°, 51°, 60°, 72°, 90°)
- U-frames are included to mount directly to the Sideframes
- Flexible to any situation, you always have the right corner in stock!
- Adjustable Guardrail Chain and Guardrailposts also included

423069
Adjustable corner section (20°, 30°, 45°, 51°, 60°, 72°, 90°)
weight: 58 kg

Fixed Corner Section

- Light weight aluminium construction
- Mounts to the U-frame with quickpins
- Supplied with Guardrails
- Economical solution
- Available in 4 separate angles: 30°, 45°, 60° and 90°

423065
Corner section 30°
weight: 8 kg

423060
Corner section 45°
weight: 10.5 kg

423055
Corner section 60°
weight: 13.5 kg

423050
Corner section 90°
weight: 29 kg
