

Scaffold Hazard Awareness (User training) in person or virtual	4 Hrs
---	-------

This program is designed to help the scaffold user recognize the hazards on various types of scaffold. It is approximately 3 hours in length and incorporates presentations that encourage student interaction participation.

Note: This course is not designed for workers that do any type of scaffold erection and has a three year certification.

The Course includes OSHA 3150 *Scaffold Use in the Construction Industry* and OSHA 3146 *Fall Protection in Construction*

Single - \$250 per person
Group (3 or more) - \$125 per person

Suspended Scaffold Hazard Awareness (User training)	4.5 Hrs
--	---------

This program is designed to help operators of suspended scaffolding recognize the hazards associated with this type of scaffold. It is approximately 4 hours in length and incorporates presentations that encourage student interaction participation.

Note: This course is not designed for workers that do any type of suspended scaffold erection and has a three year certification.

The Course includes OSHA 3150 *Scaffold Use in the Construction Industry* and OSHA 3146 *Fall Protection in Construction*

Single - \$350 per person
Group (3 or more) - \$300 per person

Competent Person Frame Scaffold OR System Scaffold	1 Day
---	-------

This program is designed for scaffold erectors and covers all the safety aspects regarding scaffold foundations, scaffold components, regulations, guardrail requirements, and erection and dismantling procedures for system scaffolds that exceed the standard height to base ratio. The course format includes a combination of presentation, question and answer, a hands-on component and final exam.

Participants who score 70% or higher on the Competent Person written exam and display competency building system scaffolding will receive a certificate of completion and wallet card from the SAIA University Training Program, certifying completion of Competent Person Training in the erection of system scaffolds. Certification is valid for three years from date of completion.

Note: Those not meeting a 70% on the final exam will receive a certificate completion and wallet card for the Hazard Awareness training.

The Course includes the training manual, *Competent Person Training: System OR Frame Scaffold*, OSHA 3150 *Scaffold Use in the Construction Industry* and OSHA 3146 *Fall Protection in Construction*

Single- \$450 per person
Group (3 or more) - \$400 per person

Competent Person Combined - Frame & Systems	2 Day
--	-------

This program combines the Competent Person System and Frame Scaffold courses into one 2 day course with a discounted price.

Combined training is the preferred method for students with little or no experience. As the rules and regulations are the same for both frames and system scaffolds, more time can be devoted to equipment identification and hands-on training giving the new user much needed experience in scaffold building

See individual course description for materials and testing requirements.

Single - \$850 per person
Group - \$750 per person

Competent Person Suspended Scaffold – (Re-certification)	1 Day (9 hrs.)
---	-----------------------

This program is designed for workers that have completed the SAIA Competent Person Suspended Scaffold course (or other CP Suspended Course) and need to re-certify. It covers all the safety aspects regarding suspended scaffold stages, ropes, regulations, guardrail requirements, fall protection, hoists and installation components. The course format includes a combination of presentation, question and answer, and final exam.

Participants who score 70% or higher on the Competent Person written exam will receive a certificate of completion and wallet card from the SAIA University Training Program, certifying completion of Competent Person Training with Suspended Scaffold. Certification is valid for three years from date of completion.

The Course includes the training manual, *Safety Training for Suspended Scaffolds*, OSHA 3150 *Scaffold Use in the Construction Industry* and OSHA 3146 *Fall Protection in Construction*

Note: The recertification class is an intense day of training and not intended for first-time CP trainees

Single - \$550 per person
Group (3 or more) - \$450 per person

Competent Person Suspended Scaffold	2 Day (16 Hour)
--	------------------------

This program is designed for suspended scaffold users from **entry level**, to experienced users who are taking a Suspended Scaffold Competent Person Course for the first time. Course includes thorough equipment identification and hands-on training, building and operating a functional suspended scaffold. Course covers all the safety aspects regarding suspended scaffold stages, ropes, regulations, guardrail requirements, fall protection, hoists and installation components. The course format includes a combination of presentation, question and answer, and final exam.

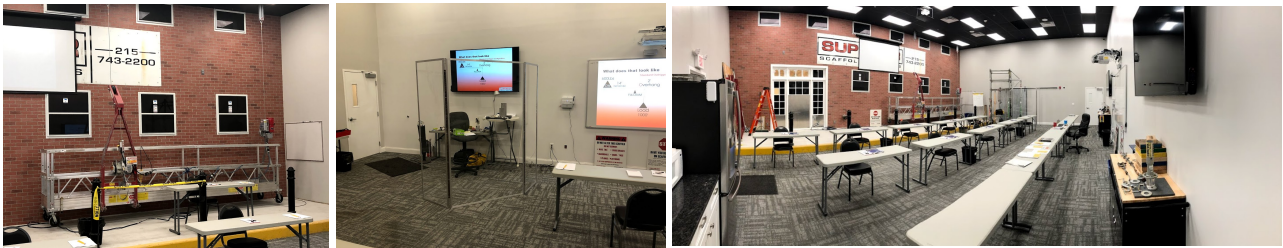

Participants who score 70% or higher on the Competent Person written exam will receive a certificate of completion and wallet card from the SAIA University Training Program, certifying completion of Competent Person Training with Suspended Scaffold. Certification is valid for three years from date of completion.

The Course includes the training manual, *Safety Training for Suspended Scaffolds*, OSHA 3150 *Scaffold Use in the Construction Industry* and OSHA 3146 *Fall Protection in Construction*

Single- \$850 per person
Group (3 or more) - \$750 per person

Full-day classes include Continental Breakfast (bagels, donuts, fruit & beverages) and Lunch (order out)
